

Table of Contents

Chapter 1: Introduction	1 – 1
1.1 State Mandate	1 – 1
1.2 Regulatory Changes.....	1 – 3
1.3 Organization of the Plan	1 – 4
1.4 Planning and Coordination	1 – 5
Chapter 2: Service Area Profile	2 – 1
2.1 History of Water Development within the City of La Habra	2 – 1
2.2 Service Area Profile.....	2 – 3
2.3 Population	2 – 4
2.4 Climate	2 – 5
2.5 Land Use	2 – 7
2.6 La Habra Water System Summary.....	2 – 8
Chapter 3: Water Supply System.....	3 – 1
3.1 Current and Planned Water Supplies	3 – 1
3.2 Water Supply Projections	3 – 2
3.3 Water Supply History.....	3 – 4
3.4 Groundwater: La Habra Basin	3 – 6
3.5 Wholesale Water–California Domestic Water Company	3 – 10
3.6 Wholesale Water–Municipal Water District of Orange County.....	3 – 12
3.7 Reliability of Supply	3 – 16
3.8 Supply Inconsistency Factors.....	3 – 20
3.9 Transfer and Exchange Opportunities.....	3 – 21
Chapter 4: Past, Current, and Projected Water Demands	4 – 1
4.1 Water Use by Customer Type	4 – 1
4.2 Water Demand and Per–Capita Trends	4 – 4
4.3 Past, Current, and Projected Water Demands	4 – 8
Chapter 5: Water Service Reliability	5 – 1

5.1 Normal Year Supply and Demand Comparison	5 – 1
5.2 Single–Dry Year Supply and Demand Comparison	5 – 3
5.3 Multiple–Dry Year Supply and Demand Comparison	5 – 5
Chapter 6: Demand Management Measures.....	6 – 1
6.1 Demand Management Measure Implementation	6 – 1
Chapter 7: Water Projects and Programs	7 – 1
7.1 Planned Water Supply Projects.....	7 – 1
7.2 Development of Desalinated Water.....	7 – 5
7.3 Recycled Water	7 – 6
Chapter 8: Water Shortage Contingency Plan.....	8 – 1
8.1 Stages of Action	8 – 1
8.2 Minimum Supply for the Next Three Years.....	8 – 2
8.3 Catastrophic Supply Interruption Plan.....	8 – 3
8.4 Prohibitions and Consumption Reduction Methods.....	8 – 5
8.5 Penalties.....	8 – 10
8.6 Revenue Impact Analysis.....	8 – 12
8.7 Reduction Monitoring Procedure	8 – 14

List of Appendices

- Appendix A: 2005 Urban Water Management Plan City Council Adoption
- Appendix B: California Urban Water Management Planning Act
- Appendix C: Senate Bill 610
- Appendix D: Senate Bill 221
- Appendix E: Emergency Water Management Program (Ordinance No. 1384)
- Appendix F: Water Conservation Requirements (Ordinance No. 1414)
- Appendix G: Statewide Water Awareness Month (Resolution No. 4099)
- Appendix H: Fees Pertaining to Water Usage/Connections (Resolution No. 5097)
- Appendix I: Population Characteristics
- Appendix J: 2005 Water Quality Report
- Appendix K: Draft Emergency Water Shortage Ordinance

List of Abbreviations

California Domestic Water Company	CDWC
Metropolitan Water District of Southern California	Metropolitan
City of La Habra	La Habra
Urban Water Management Plan	UWMP
Urban Water Management Planning Act	Act
Demand Management Measure	DMM
Municipal Water District of Orange County	MWDOC
Suburban Water Systems	SWS
Gallons Per Minute	GPM
Gallons Per Day	GPD
Million Gallons Per DayMGD
Acre–Feet Per Year	AFY
Gallons Per Capita Day	GPCD
Ultra–Low–Flush Toilet	ULFT
Landscape Performance Certification Program	LPCP
High Efficiency Clothes Washer	HECW
Orange County Water District	OCWD
Orange County Sanitation District	OCSD
Total Dissolved Solids	TDS
Integrated Resources Planning	IRP
Water Surplus and Drought Management	WSDM

Conversion Factors

Volume: 1 acre–foot = 325851 Gallons

 1 acre–foot = 0.32583 MG

 1 MG = 3.0691 acre–feet

Flow Rate 1 AFY = 0.001381 cfs

 1 AFY = 892.7 GPD

 1 AFY = 0.621 GPM

 1 AFY = 0.000893 MGD

 1 cfs = 724 AFY

 1 cfs = 646300 GPD

 1 cfs = 448.8 GPM

 1 cfs = 0.646 MGD

 1 GPD = 0.00112 AFY

 1 GPD = 0.000001547 cfs

 1 GPD = 0.0006944 GPM

 1 GPD = 0.000001 MGD

 1 GPM = 1.61 AFY

 1 GPM = 0.002228 cfs

 1 GPM = 1440 GPD

 1 GPM = 0.00144 MGD

 1 MGD = 1120 AFY

 1 MGD = 1.547 cfs

 1 MGD = 1,000,000 GPD

 1 MGD = 694.4 GPM
